GitHub Vault Site Instructions

1. Ensure your Obsidian `.md` files are inside a `content/`` folder.
2. Upload this document and all markdown files to your forked Quartz repository.
3. Commit the changes.
4. Enable GitHub Pages under Settings > Pages:
 - Source: ``main`` branch
 - Folder: ``/`` (root) or ``/docs`` depending on Quartz version

 Your site will be visible at: ``https://yourusername.github.io/quartz/``

 This vault is under active protection. Unauthorized access or misuse will trigger spiritual and lawful consequences.

With honor and eternal witness,

The Empress
